This Quarterly Report on Form 10-Q of Stony Hill Corp., a Nevada corporation (the “Company”), contains “forward-looking statements,” as defined in the United States Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by terminology such as “may”, “will”, “should”, “could”, “expects”, “plans”, “intends”, “anticipates”, “believes”, “estimates”, “predicts”, “potential” or “continue” or the negative of such terms and other comparable terminology. These forward-looking statements include, without limitation, statements about our market opportunity, our strategies, competition, expected activities and expenditures as we pursue our business plan, and the adequacy of our available cash resources. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Actual results may differ materially from the predictions discussed in these forward-looking statements. The economic environment within which we operate could materially affect our actual results. Additional factors that could materially affect these forward-looking statements and/or predictions include, among other things: the possibility that we will not receive sufficient customers to grow our business, the Company’s need for and ability to obtain additional financing, other factors over which we have little or no control; and other factors discussed in the Company’s filings with the Securities and Exchange Commission (“SEC”).

Our management has included projections and estimates in this Form 10-Q, which are based primarily on management’s experience in the industry, assessments of our results of operations, discussions and negotiations with third parties and a review of information filed by our competitors with the SEC or otherwise publicly available. We caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

NOTE 1 – NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Description of the Company

Stony Hill Corp. (formerly First Fixtures, Inc. or the “Company”) was incorporated in the State of Nevada on February 21, 2014 and established a fiscal year end of March 31. Effective October 24, 2016 the Company changed its name from First Fixtures Inc. to Stony Hill Corp. The Company is organized for various investments to be made under the Stony Hill brand as well as to conduct any other related business and activities. The Company is the owner and has right to intellectual property, including trademark, trade dress, images, likenesses and other associated intellectual property such as the name “Stony Hill”, related to Damian Marley.

Merger

On November 4, 2016, the Company, entered into a Share Exchange Agreement by and among the Company, Stony Hill Ventures Corp. (“Stony Hill Ventures”), and the holders of common stock of Stony Hill Ventures, which consisted of 26 stockholders. Stony Hill Ventures was incorporated on March 15, 2016, in Nevada and was organized for various investments under the Stony Hill brand as well as to conduct any other related business and activities.

Under the terms and conditions of the Share Exchange Agreement, the Company offered, sold and issued 10,830,000 shares of common stock of the Company in consideration for all the issued and outstanding shares in Stony Hill Ventures. The effect of the issuance is that the former Stony Hill Ventures stockholders obtained approximately 73% of the then issued and outstanding shares of common stock of the Company, and Stony Hill Ventures became a wholly-owned subsidiary of the Company and now represents the Company’s principal business.

As a result of the Merger, Damian Marley became the Company’s President and Chief Executive Officer and sole member of the Board of Directors, and is the holder of 3,150,000 shares, now approximately 20.6%, of the outstanding common stock of the Company. On February 10, 2017, Mr. Marley resigned as President and Chief Executive Officer, and the board of directors appointed Chris Bridges as our President. On March 9, 2017, Mr. Bridges was also appointed a director. Dan Dalton became the Company’s Treasurer and is the holder of 2,250,000 shares, now approximately 14.7%, of the outstanding common stock of the Company. John Brady became the Company’s Secretary and is holder of 2,000,000 shares, now approximately 10.4%, of the outstanding common stock of the Company after the transaction.

The merger between the Company and Stony Hill Ventures was treated as a reverse acquisition for financial statement reporting purposes with Stony Hill Ventures deemed the accounting acquirer and the Company deemed the accounting acquiree. Accordingly, Stony Hill Ventures’ assets, liabilities and results of operations became the historical financial statements of the Company. No step-up in basis or intangible assets or goodwill was recorded in this transaction.

On October 3, 2016, the Company declared a 1 for 10 stock split. All share and per share amounts have been retro actively restated as if the split had occurred as of the earliest period presented

Basis of presentation – Unaudited Financial Statements

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the rules and regulations of the Securities and Exchange Commission. Accordingly, the unaudited condensed consolidated financial statements do not include all information and footnotes required by accounting principles generally accepted in the United States of America for complete annual financial statements. In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments, consisting of only normal recurring adjustments, considered necessary for a fair presentation. Interim operating results are not necessarily indicative of results that may be expected for the fiscal year ending March 31, 2018, or for any other interim period. These unaudited condensed consolidated financial statements should be read in conjunction with the Company’s audited financial statements as of and for the year ended March 31, 2017, which are included in the Company’s Report on Form 10-K for such year filed on September 29, 2017.
Going concern

These condensed statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. As reflected in the condensed consolidated financial statements, the Company has only recently started to generate revenues from its business operations and incurred a net loss of $375,750 and used $210,208 of cash in operating activities during the six months ended September 30, 2017. Further, the Company’s independent auditor in their audit report for fiscal year ended March 31, 2017 expressed substantial doubt about the Company’s ability to continue as a going concern. These and other factors raise substantial doubt about the Company’s ability to continue as a going concern within one year after the date the financial statements are issued. The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

The Company’s ability to continue as a going concern is dependent upon its ability to raise additional capital and to ultimately achieve sustainable revenues and income from operations. During the six months ended September 30, 2017, the Company sold 347,500 shares of its common stock in a private placement to accredited investors at a price of $2.00 per share for total proceeds of $695,000. However, the Company will need and is currently working on obtaining additional funds to operate its business through and beyond the date of this Form 10-Q filing. There is no assurance that such funds will be available or at terms acceptable to the Company. Even if the Company is able to obtain additional financing, it may contain undue restrictions and covenants on its operations, in the case of debt financing or cause substantial dilution for its stockholders in the case of convertible debt and equity financing.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Vita Products LLC, VitaCBD LLC, an 80% owned entity, both Washington limited liability companies and SHL Management LLC a Nevada limited liability company. Intercompany transactions and balances have been eliminated in consolidation. Management evaluates its investments on an individual basis for purposes of determining whether or not consolidation is appropriate.

Use of Estimates and Assumptions

Preparation of the condensed consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Among other things, management estimates include the collectability of its accounts receivable, recoverability of inventory, assumptions made in determining impairment of investments and intangible assets, accruals for potential liabilities, and realization of deferred tax assets. These estimates generally involve complex issues and require judgments, involve analysis of historical information and the prediction of future trends, and are subject to change from period to period. Actual amounts could differ significantly from these estimates.
Cash held in trust

During the six months ended September 30, 2017, the Company received new investor funds held in a trust account at a law firm. Funds held in the trust account are released as requested by the Company. As of September 30, 2017, $499,945 of funds were held in trust.

Revenue Recognition

The Company receives revenue from two main sources - license fees and sale of products. For license fees, revenue arrangements provide for the payment of contractually determined monthly ongoing fees in consideration for the grant of right to use intellectual property of the Company, including trademark, trade dress, images, likenesses and other associated intellectual property, such as the name “Stony Hill” related to Damian Marley and in some cases mutually agreed upon marketing and special appearances by certain members of the Company. Revenue from product sales relate to shipments of cannabidiol (“CBD”) brand products. There is no right of returns other than for goods damaged during shipment.

For both license fees and sale of products, revenue is recognized when (i) persuasive evidence of an arrangement exists, (ii) all obligations have been substantially performed pursuant to the terms of the arrangement, (iii) amounts are fixed or determinable, and (iv) the collectibility of amounts is reasonably assured.

Advertising

The Company expenses advertising costs as incurred. Advertising expense for the six months ended September 30, 2017 and 2016 amounted to $56,331 and nil, respectively, and are included in "General and Administrative expenses" in the Condensed Consolidated Statements of Operations.

Earnings (Loss) per Share

The basic earnings (loss) per share is calculated by dividing the Company’s net income (loss) available to common shareholders by the weighted average number of common shares during the period. The diluted earnings (loss) per share is calculated by dividing the Company’s net income (loss) available to common shareholders by the diluted weighted average number of shares outstanding during the period. The diluted weighted average number of shares outstanding is the basic weighted average number of shares adjusted for any potentially dilutive debt or equity. Diluted earnings (loss) per share are the same as basic earnings (loss) per share due to the lack of dilutive items. For the six months ended September 30, 2017 and 2016, there were no common stock equivalents outstanding.

Weighted average number of shares outstanding has been retroactively restated for the equivalent number of shares received by the accounting acquirer as a result of the reverse merger as if these shares had been outstanding as of the beginning of the earliest period presented.

Investments

For investments that are not required to be consolidated, the Company uses either the equity method or the cost method of accounting. The Company uses the equity method for unconsolidated equity investments in which the Company is considered to have significant influence over the operations of the investee. The Company uses the cost method for all other investments. Under the cost method, there is no change to the cost basis unless there is an other-than-temporary decline in value or dividends are received. If the decline is determined to be other-than-temporary, the Company writes down the cost basis of the investment to a new cost basis that represents realizable value. Distributions received from the income of an investee on cost method investments are included in "Equity method investments (loss)/income, net." Investments accounted for under the equity method or cost method of accounting above are included in the caption "Equity investments" on the Condensed Consolidated Balance Sheets.
Intangible Asset

Intangible assets are recorded when such assets are acquired and are amortized over the estimated useful life of the intangible asset. The Company regularly reviews intangible assets to determine if facts and circumstances indicate that the useful lives have changed from the original estimate or that the carrying amount of the assets may not be recoverable. If such facts and circumstances exist, the Company assesses the recoverability of identified intangible assets by comparing the projected undiscounted net cash flows associated with the related asset or group of assets over their remaining lives against their respective carrying amounts. Impairments, if any, are based on the excess of the carrying amount over the fair value of those assets and occur in the period in which the impairment determination was made.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. ASU 2014-09 is a comprehensive revenue recognition standard that will supersede nearly all existing revenue recognition guidance under current U.S. GAAP and replace it with a principle based approach for determining revenue recognition. Under ASU 2014-09, revenue is recognized when a customer obtains control of promised goods or services and is recognized in an amount that reflects the consideration which the entity expects to receive in exchange for those goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The FASB has recently issued ASU 2016-08, ASU 2016-10, ASU 2016-11, ASU 2016-12, ASU 2016-20, and ASU 2017-05, all of which clarify certain implementation guidance within ASU 2014-09. ASU 2014-09 is effective for interim and annual periods beginning after December 15, 2017. Early adoption is permitted only in annual reporting periods beginning after December 15, 2016, including interim periods therein. The standard can be adopted either retrospectively to each prior reporting period presented (full retrospective method), or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (the cumulative catch-up transition method). The Company is currently in the process of analyzing the information necessary to determine the impact of adopting this new guidance on its financial position, results of operations, and cash flows. The Company will adopt the provisions of this statement in the quarter beginning April 1, 2018.

In February 2016, the FASB issued ASU No. 2016-02, Leases. This update will require the recognition of a right-of-use asset and a corresponding lease liability, initially measured at the present value of the lease payments, for all leases with terms longer than 12 months. For operating leases, the asset and liability will be expensed over the lease term on a straight-line basis, with all cash flows included in the operating section of the statement of cash flows. For finance leases, interest on the lease liability will be recognized separately from the amortization of the right-of-use asset in the statement of comprehensive income and the repayment of the principal portion of the lease liability will be classified as a financing activity while the interest component will be included in the operating section of the statement of cash flows. ASU 2016-02 is effective for annual and interim reporting periods beginning after December 15, 2018. Early adoption is permitted. Upon adoption, leases will be recognized and measured at the beginning of the earliest period presented using a modified retrospective approach. The Company is currently evaluating the impact of the adoption of ASU 2016-02 on its financial statements and related disclosures.

In January 2016, the FASB issued ASU 2016-01, Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities. ASU 2016-01 primarily affects equity investments, financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. Among other things, this new guidance requires certain equity investments to be measured at fair value with changes in fair value recognized in net income. This standard is effective for reporting periods beginning after December 15, 2017, with certain provisions allowing for early adoption. The Company will adopt the provisions of this statement in the quarter beginning April 1, 2018.

Other recent accounting pronouncements issued by the FASB, including its Emerging Issues Task Force, the American Institute of Certified Public Accountants, and the Securities and Exchange Commission did not or are not believed by management to have a material impact on the Company's present or future consolidated financial statements.

NOTE 4 – INTANGIBLE ASSET

The VitaCBD business is primarily a line of cannabidiol (“CBD”) retail brand products that include CBD tinctures, ejuces, edibles, islates, salves, waxes, oils and capsules, as well as related trade names, social media, accounts and other related assets. As of September 30, 2017, these shares have not been issued and have been reflected in the condensed consolidated balance sheet as common stock to be issued.

The intangible is being amortized over a period of 5 years, the estimated life of the brand acquired. Amortization totaled $112,256 for the six months ended September 30, 2017 and will total $224,512 for the fiscal year ending March 31, 2018 and $224,512 in each of the following 4 years and $15,575 thereafter.

common stock held by mCig falls below $1.57 per share, or $550,000 total value (“Market Value”), during any 7-day
period during the first year following the Second Stock Issuance (May 24, 2017), then the Company is obligated to issue
to mCig additional shares of the Company’s common stock to increase the then Market Value held by mCig to $550,000.
As of September 30, 2017, the trading price of common stock held by mCig was above the Market Value threshold.

Merger

On November 4, 2016, we entered into a Share Exchange Agreement by and among the Company, Stony Hill Ventures Corp. (“Stony Hill Ventures”), and the holders of common stock of Stony Hill Ventures, which consisted of 26 stockholders. Stony Hill Ventures was incorporated on March 15, 2016, in the State of Nevada and is organized for various investments under the Stony Hill brand as well as to conduct any other related business and activities. Specifically, Stony Hill is the owner and has right to intellectual property, including trademark, trade dress, images, likenesses and other associated intellectual property, such as the name “Stony Hill” related to Damian Marley.

Under the terms and conditions of the Share Exchange Agreement, we offered, sold and issued 10,830,000 shares of our common stock in consideration for all the issued and outstanding shares in Stony Hill Ventures. The effect of the issuance is that former Stony Hill Ventures stockholders obtained approximately 73% of the then issued and outstanding shares of our common stock and Stony Hill Ventures became a wholly-owned subsidiary of our Company and now represents our principal business activity.

Upon completion of the Merger, Damian Marley became our President and Chief Executive Officer and sole member of the Board of Directors and holder of 3,150,000 shares, or 21.2%, of our then outstanding common stock. Dan Dalton became our Treasurer and holder of 2,250,000 shares, or 15.1%, of our then outstanding common stock. John Brady became our Secretary and holder of 2,000,000 shares, or 13.4%, of our then outstanding common stock. Thus, our officers and sole director, at the time of the merger, controlled an aggregate of 7,400,000, or 49%, of our outstanding common stock, on a fully diluted basis. Mr. Marley now controls approximately 20.6% of our issued and outstanding shares of common stock. Mr. Dalton now controls approximately 14.7% of our issued and outstanding shares of common stock. Mr. Brady now controls approximately 10.4% of our issued and outstanding shares of common stock.

The Merger between our Company and Stony Hill Ventures was treated as a reverse acquisition for financial statement reporting purposes, with Stony Hill Ventures deemed the accounting acquirer and Stony Hill Corp. deemed the accounting acquiree. Accordingly, Stony Hill Ventures’ assets, liabilities and results of operations became the historical financial statements of our company. Further, no step-up in basis or intangible assets or goodwill was recorded in this transaction.

On October 3, 2016, the Company declared a 1 for 10 stock split. All share and per share amounts have been retroactively restated as if the split had occurred as of the earliest period presented

Liquidity and Capital Resources

Cash Flows

A summary of our cash flows for the six months ended September 30, 2017 is as follows:

Net cash used in operating activities was $210,208 for the six months ended September 30, 2017 as compared to $29,762 for the six months ended September 30, 2016. Net cash used in operations primarily comprised of general and administrative expenses.
Net cash used in investing activities was $50,000 during the six months ended September 30, 2017, which comprised of a $50,000 equity investments we made during the six months ended September 30, 2017. During the six months ended September 30, 2016, net cash used in investing activities was $430,000, which comprised $105,000 from cash held in a trust account related to the sale of our common stock and $325,000 in a deposit on acquisition related to the Merger.

Net cash provided by financing activities for the six months ended September 30, 2017 was $195,055 as compared to $715,101 for the six months ended September 30, 2016. The net change comprised primarily of $695,000 from our sale of common stock during the six months ended September 30, 2017 of which $499,945 was held in a trust account at a law firm as of September 30, 2017 compared to $715,101 received from our sale of common stock during the six months ended September 30, 2016.

**Going Concern**

Our principal sources of liquidity have been cash provided by financing, primarily through the sale of equity securities, and revenues from our principal business activities from our CBD products. Our uses of cash have been primarily for operations and marketing efforts to promote our intellectual property and company along with strategic investments we have made in various companies. We anticipate that significant additional expenditures will be necessary to expand and bring to market our license and marketing services before sufficient and consistent positive operating cash flows will be achieved. Additional funds will be needed to continue operations, obtain profitability and to achieve our objectives. As such, our cash resources are insufficient to meet our current operating expense requirements and planned business objectives beyond the date of this Form 10-Q filing without additional financing.

As reflected in the condensed financial statements contained elsewhere is this Form 10-Q, we had cash on hand and cash held in a trust account as of September 30, 2017 of $147,484 and $499,945, respectively, and utilized $210,208 of cash for operations including a net loss of $374,611 during the six months ended September 30, 2017. These and other factors raise substantial doubt about our ability to continue as a going concern. Further, our independent auditors in their audit report for our fiscal year ended March 31, 2017 expressed substantial doubt about our ability to continue as a going concern. Our financial statements do not include any adjustments that might be necessary should we be unable to continue as a going concern.

Our ability to continue as a going concern is dependent upon our ability to raise additional capital and to ultimately achieve sustainable revenues and profit from operations. As of the date of the filing of this Form 10-Q, we did not have any commitments from any third parties to provide this capital, and there can be no assurance that any additional funds will be available to us. Even if we can obtain additional financing, it may contain undue restrictions and covenants on our operations, in the case of debt financing, or cause substantial dilution for our shareholders in the case of convertible debt and equity financing.

**Summary of Significant Accounting Policies**

*Use of Estimates*

Financial statements prepared in accordance with accounting principles generally accepted in the United States require us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among other things, estimates include the collectability of accounts receivable, recoverability of inventory, assumptions made in determining impairment of investments and intangible, useful life of our intangible, and accruals for potential liabilities. These estimates generally involve complex issues and require judgments, involve analysis of historical information and the prediction of future trends, and are subject to change from period to period. Actual amounts could differ significantly from these estimates.

*Investments*

For investments that are not required to be consolidated, we use either the equity method or the cost method of accounting. We use the equity method for unconsolidated equity investments in which we are considered to have significant influence over the operations of the investee. We use the cost method for all other investments. Under the cost method, there is no change to the cost basis unless there is an other-than-temporary decline in value or dividends are received. If the decline is determined to be other-than-temporary, we write down the cost basis of the investment to a new cost basis that represents realizable value.
Intangible Asset

Intangible assets are recorded when such assets are acquired and are amortized over the estimated useful life of the intangible asset. We regularly review intangible assets to determine if facts and circumstances indicate that the useful lives have changed from the original estimate or that the carrying amount of the assets may not be recoverable. If such facts and circumstances exist, we assess the recoverability of identified intangible assets by comparing the projected undiscounted net cash flows associated with the related asset or group of assets over their remaining lives against their respective carrying amounts. Impairments, if any, are based on the excess of the carrying amount over the fair value of those assets and occur in the period in which the impairment determination was made.
